World Literature & Anthropology

During my five-week experience in Madrid, I took a course on underworlds and afterlives. This course gave me an opportunity to see ancient art and theater.

Muse of
Comedy

I also took an anthropology course in which I got a better understanding of human evolution.

What I learned from study abroad in Madrid

Aphrodite 2nd century

- I gained a better understanding of how people came to be and how people express their experiences.
- I also learned about how ancient civilizations interpreted what they could not explain.
- While in Madrid I also gained an appreciation of the crises surrounding the conservation of ancient ruins.
